## COLLEGE **Shield**

**AWARDS FOR INNOVATION IN  
SECURITY AND SAFETY TECHNOLOGY**

## All India College Awards for innovative ideas in Security & Safety Technology

The electronic security and safety industry is one of the fastest growing industries in India. With the government push towards Smart Cities, Safe Cities and Make in India, there is a huge potential to be tapped. To promote local innovation and research, SECONA - The Security Consultants Association - now invites students from engineering & science colleges and technical institutes to participate in the first ever all India college level competition for projects in Security & Safety Technology - the SECONA College Shield Awards, powered by Secutech India.
